

Chemotherapy Gown

Level 3

MADE IN ISTANBUL, TURKEY 

Description

The level 3 sterile chemotherapy gown with ultra sonic seams is a single-use disposable garment featuring a thumb loop with moderate barrier protection against harmful pathogens. The highly protective ultrasonic seams ensure the safety of the health personnel and their patients during the lengthy procedures. The level 3 sterile gowns are tested against twelve chemotherapy drugs and are approved by the U.S. laboratories under the ASTM F739 standard requirements.
