

# BCR® Glove Liners

Full & Half Finger Polyester or Nylon

## Hand Health and Comfort

### BCR® Cleanroom Glove Liners - Protection and Comfort During Extended Wear

BCR® Glove Liners enhance operator comfort. They greatly reduce perspiration and contact dermatitis associated with wearing latex, vinyl, nitrile and other gloves. The gloves are ambidextrous. Each glove size has a colored cuff for easy stock control.

The half-finger versions are ideal for operators who need to retain maximum dexterity and fingertip sensitivity.

BCR® Glove Liners are manufactured to the highest quality standards, offering consistent performance every time. The liners are made out of 100% continuous filament polyester or nylon, laundered to reduce particle and fiber release and come in a variety of sizes and styles to maximize comfort.

There are no seams on the gloves that could unravel and cause contamination.

In response to environmental and economical concerns, our glove liners can be repeatedly laundered and reused. Berkshire offers a complete line of glove liners in polyester and nylon to meet your specific need and application. Choose from a wide range of sizes that are color-coded for easy stock control.

## GLOVE LINERS

### Are Berkshire's Glove Liners Autoclavable?

Our polyester glove liners can be sterilized by beta or steam per your Standard Operating Procedure.

### Are Berkshire's Glove Liners Ambidextrous?

Yes, our glove liners are ambidextrous for easy stock control.

### Are Berkshire's Glove Liners Launderable?

All of Berkshire's glove liners can be laundered for multiple reuse.

## BCR® Polyester Glove Liners

BCR Polyester Glove Liners are made out of high quality 100% continuous filament polyester. They are medium weight and are soft and comfortable to wear for long periods.

The liners can be re-laundered and used again. Half finger liners allow operators to retain full dexterity and 100% fingertip sensitivity.

- 100% continuous filament, knitted polyester
- Composition allows moisture to be absorbed and wicked away from skin during extended wear
- Constructed using special seamless techniques
- No-run and non-ravel
- Ambidextrous for easy stock control
- Launderable for multiple reuse
